FEEDBACK FROM PARTICIPANTS

“

Komtrans + BUSexpoAstana is a major platform to showcase your machinery, present innovations, and build business partnerships. Here, many partners are engaged in negotiations, and such an opportunity to develop cooperations should not be missed, which is why we are very pleased to be here.

Vitaliy Ryadinsky,

Head of Sales for Commercial Special Vehicles,
“QazTehna” Plant

Last year, we also participated in this exhibition, and as a result, we signed a significant number of large and promising contracts. We found new partners here and see strong potential for continued cooperation.

Konstantin Sharov

Head of the Dealer Network Division for CIS Countries,
Modern Transport Technologies Group

“

We are presenting the FAW brand at this exhibition. We have a tractor unit, a dump truck, and commercial vehicles on display. The exhibition is going well. We have two potential requests. One client is even ready to sign a leasing contract. On behalf of myself and the Silkway Techno company, I'd like to thank the Komtrans exhibition organizers. Thank you very much. We look forward to further participation and future invitations. Thank you.

Rustam Tyutenov

Head of Sales Department for the FAW brand

PRO FOOD

EXPO 

International Exhibition of Equipment, Technology, and Ingredients for the Bakery, Confectionery, Meat, Dairy, and Coffee Industries

9-11.9.2026

IEC EXPO, ASTANA, KAZAKHSTAN

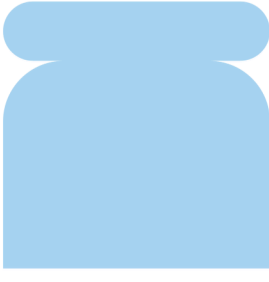

From farm to table

ABOUT THE EXHIBITION

PRO FOOD EXPO is an international exhibition showcasing equipment, technologies, and ingredients. Bringing together manufacturers, processors, suppliers, and representatives. It's a platform where the future of the food industry takes shape. Be part of it! Present your brand where new standards of quality and taste are created.

8 AREAS FOR FOOD BUSINESS DEVELOPMENT

Dairy products

Dairy products and fermented dairy products, sports nutrition, protein, and more. Includes items like milk, yogurt, cheese, and butter. Focuses on production and packaging technologies, as well as certification issues.

Meat products

Meat products, ready-to-eat items, processed meat, and production and packaging. Includes items like ham, sausage, and meatballs. Focuses on production and packaging technologies, as well as certification issues.

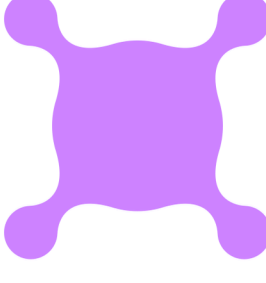

Organic and natural products

Food segment for producers of organic and natural products, functional products, and specialized foods. Focuses on production and packaging technologies, as well as certification issues.

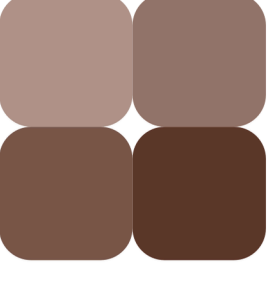

HoReCa

Equipment for restaurants, bars, and hotels, automation and online delivery systems, and management software. Focuses on production and packaging technologies, as well as certification issues.

Home use

Restaurant and retail concepts, bakeries, confectioneries, coffee shops, fast-food cafes, and other business models in a franchise format.

Consumer goods

A wide range of consumer goods — from confectionery and chocolate to beverages, snacks, and packaging solutions. The section covers both finished products and the technologies of their production, marketing, logistics, and certification.

BeviTec International exhibition of equipment, ingredients, and packaging for beverage production.

Modern Bakery Moscow International exhibition of equipment and ingredients for bakery and confectionery production.
